SUMMARY

Dynamic Python and Django Backend Web Development Intern at Grras Solutions Pvt. Ltd., I excelled in crafting scalable web applications and optimizing database models. Proficient in MySQL and collaborative problem-solving, I significantly enhanced project performance and security, solidifying my expertise in backend technologies while ensuring seamless frontend-backend integration.

WORK EXPERIENCE

Python Web Developer (Intern), Grras Solutions Pvt. Ltd.   **May 2024 - Nov 2024**

- As a Python and Django Backend Development Intern, I gained hands-on experience in building and optimizing web applications using Django, one of the most robust web frameworks
- My responsibilities included developing scalable backend architectures, designing efficient database models, and implementing APIs for seamless frontend-backend integration
- I also collaborated with teams to debug and enhance existing projects, ensuring robust performance and security
- During the internship, I honed my skills in Python programming, database management (MySQL), and web development best practices, solidifying my foundation in backend technologies

EDUCATION

Bachelor of Technology   **Sept 2024 - Present**

Poornima College of Engineering

- Computer Science, Cyber Security

KEY SKILLS

- Django , REST
- HTML CSS BOOTSTRAP
- Python
- MySQL

HOBBIES

- Coding
- Graphic Designing
- Video Editing

PROJECTS

- Precision Arms
- Connectly
- Paw Rescue
- PoornimaX
